Do you wonder
what I can do?

Developmental screenings help parents figure out the things their children can do at certain ages.

If you are interested in finding out more about your child's development, contact 3-1-1 and select option "early childhood," or one of the programs below.

Early Childhood Special Education Preschool Program

Department of Education

Emergency Preparedness

Prepare, Plan, and Pack

Emergency situations can happen at any time, and at any place. Whether natural or man-made, these emergency situations can result in damage to property and endanger the health and safety of the general public.

Guam regularly experiences natural disasters such as typhoons, earthquakes, and floods. Fires and disasters from hazardous materials are other occurrences that may endanger you and your property.

Prepare Basic Supplies

In the event of an emergency, you should be prepared to be self-sufficient for up to seven days. Preparing and maintaining an emergency supply of essential items can help ensure that you have adequate supplies to meet your and your family's needs until help arrives.

Basic emergency supplies include:

- One week supply of canned and dried food items
- Drinking water – at least one gallon per person per day
- Flashlights and extra batteries
- Battery operated radio
- First Aid kit
- Whistle
- 10 - 30 day supply of medications and medical supplies
- Toilet tissue and personal hygiene supplies
- Water for flushing toilet in the event water is shut off
- Trash bags, gloves, duct tape or masking tape, and plastic containers for storing items
- Chlorine bleach for sanitizing
- Propane stove and extra propane gas
- Cell Phone with charger, extra battery
- Can Opener
- Roll up mat and blankets
- 3-day supply of change of clothes
- Sturdy shoes
- Lighter
- Formula (powder or liquid)
- Baby food
- Disposable diapers
- Change of clothes, bibs, blankets
- Baby soap, shampoo, powder, lotion and wipes
- Disposable gloves/Hand sanitizer
- Favorite toy, blanket, stuffed animal or books
- Paper products (plates, spoons, forks, and paper towels)

Emergency Preparedness

Make a Plan and Practice your Plan

Emergency preparedness also means making a plan.

Your plan should:

- Designate a place to meet if you and your family are separated from each other.
- Pick a primary and alternate contact number for you and your family to call if you are separated from each other.
- Establish a buddy system with other family members, friends, neighbors, or co-workers, and develop a plan on how you can help each other.
- Consider including your children in your planning, preparation, and other activities to help them understand the importance of emergency preparedness. Children learn from your example.
- Share your plan and your emergency contact list with members in your buddy system.
- Make a plan on how to secure your house in case you are not home or you are otherwise unable to secure your home.
- Identify another place to go to in case you need to evacuate.
- Establish your primary and alternate evacuation routes.
- If you use mobility aids, plan on how to take them with you and how to store extra aids at your alternate shelter, if possible.

Pack a GO-KIT (Disaster Supply Kit)

You should prepare a bag with your most essential items that you can grab if an emergency situation occurs and you need to evacuate right away. Be sure the bag is not too heavy for you or someone to carry.

Your emergency GO-KIT should include:

- List of contact numbers
- Dried foods and bottled water
- Flashlight and extra batteries
- Whistle
- Small portable radio and extra batteries
- Basic toiletries and sanitary items
- Medications and medical supplies
- Important documents, including medical information

It is a good idea to:

- Place your bag near an entry or exit way so it can easily be carried out.
- Put reminder notices in your calendar or appointment book to check and replace items in your bag at least every 6 months.
- Let people in your buddy system know where your GO-KIT is located.

Family Supports

Tips for Families

- Parenting is the biggest challenge you will face. It is okay to ask for help when you need it.
- To take care of your baby, you need to take care of yourself.
- Your child's doctor is a good resource for assistance in finding other people who can help you be the best parent you can be.
- Your child's teacher is a good resource for teaching strategies and finding other services and supports for your child and your family.
- Take the time during the early years to teach and love your child. The more time and energy you put into these years, the less heartache and challenge you will have when they are older.
- When feeding, diapering, or bathing your baby, spend time singing, cuddling, and talking during these caring routines to support your baby's development.
- Children never outgrow their need to be touched gently and often – it helps them feel secure and calm so they continue to learn and grow.
- Provide a variety of sensory experiences – taste, touch, smell, sight, sound – to help build your baby's brain.
- It is never too early to introduce books to your baby.
- Play is how young children learn best.
- Children learn from your example.

Your baby's hearing is **IMPORTANT**

To schedule a
FREE HEARING SCREENING
by six months of age for your
baby, contact the Guam Early
Intervention System (GEIS)
at 671-300-5776/5816.

Supported by the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS) under Grant No. H61MC24883-11-01 Universal Newborn Hearing Screening and Intervention (\$250,000).

Parent Information: Your Baby's Hearing

Hearing can change at any time. Talk with your baby's primary care provider if anything on the list below applies to your baby now or in the future:

1. Either parent or other close family member had hearing loss as a child
2. Your baby was in the NICU for more than five days
3. Your baby had an exchange transfusion
4. Your child had/has many ear infections
5. Your child had/has a head injury
6. You don't think your child is hearing well
7. You don't think your child is talking well
8. Your baby's behaviors differ from the HEARING CHECKLIST

Did you know?

50% of infants with hearing loss have no risk factors

Hearing can change.

Monitor your baby's developmental milestones with the hearing checklist!

✓ HEARING CHECKLIST

0-3 MONTHS

- ✓ Startles or cries to loud sounds
- ✓ Quiets to familiar voices
- ✓ Moves or wakes up when someone talks

3-6 MONTHS

- ✓ Coos, gurgles, and makes a variety of voice sounds
- ✓ Looks toward loud voices or sounds
- ✓ Enjoys rattles or other toys that make sound

6-12 MONTHS

- ✓ Begins to imitate speech sounds ("baba," "mama")
- ✓ Understands "no" or "bye bye"
- ✓ Begins to turn head toward soft sounds
- ✓ Looks at familiar objects when named

12-18 MONTHS

- ✓ Readily turns toward all sound
- ✓ Recognizes name and understands about 50 words
- ✓ Moves from saying 2 words to 10 words
- ✓ Follows simple directions ("find your ball")

18-24 MONTHS

- ✓ Enjoys being read to
- ✓ Points to body parts when asked
- ✓ Starts to combine words, such as "more milk"
- ✓ Says 20-50 words and understands many more

More questions about hearing screening?

Health Services

Tips for Families

- Eat foods that are good for you – vegetables, fruits, grains, and dairy foods.
- Get daily exercise – walk with your baby, play outside with your toddler or preschooler.
- NEVER shake your baby! Don't throw your baby, even if you are playing, as this may cause the brain to swell, bleed, or bruise which can cause blindness, seizures, intellectual disability, other disabilities, or even death.
- Arrange for your child to receive regular check-ups and scheduled immunizations.
- If you call your doctor's office/clinic, be sure to get the name of the person you speak with in case you need to call back or if questions come up.
- Ask the clinic if they accept walk-ins and if there are any payments to be made up front.
- Be sure to verify the type of insurance (including Medicaid), the doctor/clinic will accept.
- Ask what types of payment are accepted – cash, check, and/or credit card.
- Make sure you have the necessary documents to help get the most out of your child's visit – shot records, medical history, medications (type and dosage), insurance, guardianship, etc.

Do you need financial assistance to purchase an Assistive Technology device?

The
**AKUDI LOAN
PROGRAM**

may be able to help!

For more information, please call our office, **671-735-2490/1**
or visit the GSAT website: **www.gsattedders.org**

Please note that this is not a scam attempt. The Akudi Loan Program is funded by the U.S. Department of Health and Human Services, Administration for Community Living, Grant #1901GUATSG-01. Additional support is provided by the US DHHS, Administration on Intellectual and Developmental Disabilities. The University of Guam is an equal opportunity provider and employer.

Educational Services

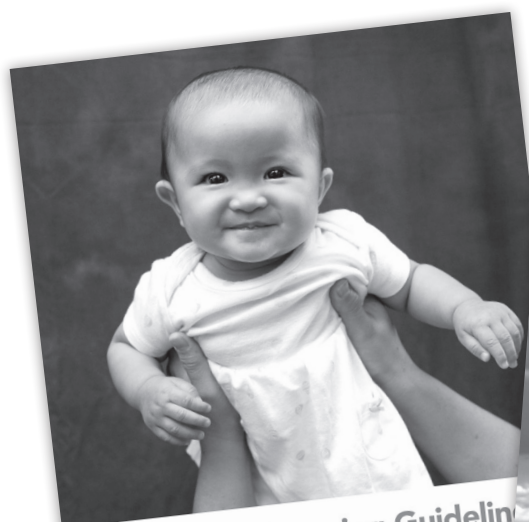

Tips for Families

- When choosing a child care center, cost should not be the only consideration. Think of health and safety, trained and loving teachers, and toys and materials that are educational and appropriate for your child's age.
- Anyone can love a child who is easy to care for and is in a good mood. Look at how a caregiver handles a crying, tantruming child. Notice whether the caregiver responds with love, patience, and positive, calm words, or with harsh and disrespectful words and actions.
- A high quality child care center will help your child learn about himself, his feelings, other people, communication, physical movement, and thinking skills.
- Take time each day to talk with your child's teacher. You are partners in providing the highest quality of care and education.

Guam Early Learning Guidelines:

Birth to 36 Months

3 to 5 Years

Guam Early Learning Guidelines
Birth to 36 Months

Guam Early Learning Guidelines
for Ages Three to Five

Guam Early Learning Guidelines are great resources to assist parents, families, and caregivers in understanding what infants and toddlers are typically able to do as they grow and develop. The guidelines address the domains of development and include strategies that may enhance the overall development of all young children including those with special needs.

Enhance Your Quality Of Life Through Assistive Technology!

GSAT Services/Programs

GSAT Demonstration & Resource Center

GSAT is a center, available to the community, where visitors can visit, learn, and make an informative decision in selecting the best AT to meet their needs.

- AT Device Demonstrations
- Equipment Displays
- Annual Assistive Technology Conference & Fair

AT Device 30-day Lending Library

The GSAT center allows the community an opportunity to test and actually try any device available at the center. In addition, items can be taken home, to school, or even to the workplace for a 30-day period, free of charge.

- Information and Referral
- Training on AT Devices & Software
- Database Library of Products & Services

AT Recycling & Equipment Exchange

GSAT, with the help of community partners, attempts to repair and refurbish old or used AT devices which are later available to the community for purchase.

- Collection of used AT equipment
- Listing of AT devices for sale or exchange

Alternative Funding Programs

GSAT's loan programs provide the community a means to purchase AT or pursue home-based employment.

- Low interest rates and flexible payment terms
- No credit history required

Call or Visit GSAT!
